10																		

KEYS:

Y - Yes

Record whether the person followed the hand hygiene procedure during

N – No

The above potential 5 'moments'.

N/A - Not Applicable

Each 'moment' should have a (√) in either a 'Yes', 'No', or 'N/A' box:-

Yes = They washed their hands or used alcohol gel at this stage

No = They did not wash their hands or use alcohol gel at this stage

N/A = This stage was not applicable to this client on this occasion

No	STEPS	Q	ANSWERS	(√)	(X)
1	Before touching a patient	WHEN?	Clean your hands before touching a client when approaching him/her		
		WHY?	To protect the client against harmful germs carried on your hands		
2	Before clean/aseptic procedure	WHEN?	Clean your hands immediately before performing a clean/aseptic procedure		
		WHY?	To protect the client against harmful germs, including the patient's own, from entering his/her body		
3	After body fluid exposure risk	WHEN?	Clean your hands immediately after an exposure risk to body fluids		
		WHY?	To protect yourself and the health-care environment from harmful patient germs		
4	After Touching A Patient	WHEN?	Clean your hands after touching a patient and his/her immediate surroundings when leaving the patient's side.		
		WHY?	To protect yourself and the health-care environment from harmful patient germs		
5	After Touching Patient surroundings	WHEN?	Clean your hands after touching any object or furniture in the patient's immediate surroundings, when leaving - even if the patient has not been touched.		
		WHY?	To protect yourself and the health-care environment from harmful patient germs.		
TOTAL					
%					

Calculation: Total no. correct x 100 =

10

RESULT:

Rating	Conformance	Non- Conformance
Total
